

Strategic Technology Leadership Without the Full-Time Executive Cost.

Fractional CIO & CISO | Cloud & Cybersecurity Strategy | IT Governance

WHO WE ARE

Cortex Technology Advisors provides executive-level IT and cybersecurity leadership to growing organizations. We help you modernize technology, manage cyber risk, and align your IT investments with business goals.

OUR APPROACH

We partner directly with leadership teams to design secure, efficient, and scalable technology environments, bringing IT strategy, cybersecurity, and cloud expertise together under one advisor.

EVERY ENGAGEMENT DELIVERS TWO OUTCOMES

Reduce business risk

Increase business value

WHAT WE DELIVER

CIO Strategic Guidance

Better executive decisions with less risk. IT strategy and roadmap, governance, KPIs and performance metrics.

Cloud & Modernization

Lower operating costs and better resilience. Cloud strategy, migration planning, infrastructure optimization.

AI Governance & Automation

Less regulatory and legal risk, more productivity. AI policy, opportunity identification, process automation.

Cybersecurity & Risk

Less business interruption and financial exposure. Security assessments, ISO 27001 and NIST alignment, compliance support.

Vendor & Budget Consulting

Lower spend and better service. Budget oversight, cost and ROI analysis, vendor selection, contract negotiation, SLAs.

Data & Business Intelligence

Better decisions that grow revenue. Data governance and analytics strategy.

WHY FRACTIONAL

- Senior IT leadership at a fraction of a full-time salary
- Reduced risk and better decisions
- A clear, actionable IT strategy
- Better vendor performance and transparency
- A modern, scalable, secure environment
- Results you can measure, not just technical reports
